

In the 7+ years I have been providing health insurance to the Orlando community, the internet has become a great tool for the client. Most health insurance companies allow the shopper to go onto their site and see the plans they offer and sometimes download a brochure. On my website, www.individualorlandohealthinsurance.com, you can click on links to UnitedHealthCare and Assurant and look at different plans and receive quotes online.

After researching health insurance online, contact a local health insurance broker, like myself, who can break down the coverage and put you into the right plan for yourself/family. After I have chosen a plan with a client, I can walk them through the application process online. Depending on the health insurance company, you could be approved immediately.

For the agent, our job doesn't end after approval. I want to sure you are happy with your plan and be available if you have claims questions.

If you or anyone you know is in the market for health insurance, please give me a call at 407-489-5777.
